## Recommendation:

That the Board of Deferred Compensation (a) receive and file status report on Deferred Compensation Plan budget accounts for quarter ending 12/31/16; and (b) approve reimbursements from the Deferred Compensation Plan Reserve Fund accounts to the Personnel Department for $\$ 107,463.53$ and City Attorney for $\mathbf{\$ 2 5 , 4 8 2 . 5 4}$ for the quarter ending $12 / 31 / 16$.

## Discussion:

Reimbursements - Staff recommends reimbursement from the Deferred Compensation Plan Reserve Fund accounts to the Personnel Department for \$107,463.53 and City Attorney for $\mathbf{\$ 2 5 , 4 8 2 . 5 4}$ for the quarter ending 12/31/16. Quarterly activity in the Plan's revenue/expenditure accounts is included in Attachment A. Calculations for the current quarters include salaries for all positions presently servicing the Plan, including direct salary and indirect costs as calculated in the City Controllercalculated Special Rates Calculation for Indirect Cost Centers ("Special Rates"). These rates are subject to revision by the Controller. If they are revised, staff will address the adjustment in a future quarterly reconciliation. Special Rates (39) for Personnel and City Attorney are presently 89.37\% and 84.04\% respectively for the FY 16-17.

Reserve Fund Projection - All of the City's internal administrative costs are required to be paid by participant fees. Two accounts are used to pay expenses: a fund held with the Plan administrator which acts as a repository for participant fees and from which most Plan expenses are paid; and a fund held within the City, from which travel and equipment purchases are made, as illustrated in the graphic on the right.

In order to maintain stability within the fee structure, the Plan maintains a reserve balance. The target reserve amount is $50 \%$ of annual Plan operating expenses. Each quarter when staff submits its accounting and recommendations for reimbursing administrative costs, a long-term projection is updated using assumptions for key variables that have been considered by the Board. This information is generated so that the Board can compare the long-term projected reserve to the target reserve.

The Board last reviewed its long-term assumptions for Plan revenues/expenditures at its November 2013 Strategic Plan review. The Board adopted assumptions and key variables as reflected below. These assumptions are being reviewed again by the Plan Governance and Administrative Issues Committee, which previously met on December 7, 2016, and will meet again as part of developing its recommendations to the Board.

With each quarterly review staff provides a ten-year projection of the reserve fund balance. As a result, following is a rolling ten-year forecast of the Deferred Compensation Plan's reserve fund balance.

As indicated in the chart above, staff has calculated the projected surplus relative to the targeted reserve amount over a ten-year period. Presently the surplus is projected to be above the target reserve over the entire period. The lowest projected amount above the target reserve is $\$ 776,000$ in 2022, increasing to $\$ 2$ million above target in 2026. This information is being considered by the Plan Governance \& Administrative Issues Committee as it is in the process of developing its recommendations to the Board regarding assumptions, expenses, and participant fees.
