

Board Report 22-61

Date: December 7, 2022

To: Board of Deferred Compensation Administration

From: Staff

Subject: Quarterly Staffing Reimbursements – Third Quarter 2022

Board of **Deferred Compensation** Administration **Thomas Moutes** Chair Neil Guglielmo Vice-Chair Robert Schoonover First Provisional Chair Joshua Geller Third Provisional Chair Dana H. Brown Linda P. Le Joseph Salazar Baldemar J. Sandoval Jeremy Wolfson

Recommendation:

That the Board approve reimbursements from the Deferred Compensation Plan (DCP) Reserve Fund to the Personnel Department in the amount of \$47,045.58 and to the City Attorney in the amount of \$25,872.22 totaling \$72,917.80 for staff providing direct support of the DCP during the quarter ending September 30, 2022.

Discussion:

A. Quarterly Staffing Reimbursements – Third Quarter 2022

The proposed reimbursements identified in this report include the total staffing costs (direct and indirect – net method¹) of Personnel Department and City Attorney positions providing direct support for the DCP during the quarter beginning July 1, 2022 and ending September 30, 2022 as follows:

¹ Staff uses two methods for reimbursement of staffing costs. The gross method is used for employees charging 100% of their time to the DCP. Funding for positions fully dedicated to the DCP was realigned from the General Fund to the DCP Trust Fund effective July 1, 2021 and accordingly accounting and funding reconciliation for these positions is now administered internally between DCP staff and the Personnel Department's Accounting section (Board approval of reimbursements for these fully-dedicated positions is no longer required). The net method is used for employees who do not charge 100% of their time to the DCP, and is billed on a quarterly basis. The distinction between the two is that a Compensated Time Off (CTO) rate, which accounts for non-working hours such as sick and vacation time, is applied to the net method but not applied to the gross method (since compensated time such as vacation and sick time are already captured in gross salary). The gross method is used to reimburse the full-time Personnel Department staff fully dedicated and 100% supporting the DCP (one Sr. Personnel Analyst II) two Benefits Analysts; one Benefits Specialist). The net method is used to reimburse full-time Personnel Department staff (one Chief Management Analyst; one Senior Personnel Analyst II) and City Attorney staff who are partially dedicated to the DCP.

Summary of Staffing Cost Reimbursements for Third Quarter 2022 (July 1, 2022 - September 30, 2022)					
Personnel Department Direct Costs Net Method	\$	23,870.10			
Personnel Department Indirect Costs Net Method @ 97.09%	\$	23,175.48			
Total Reimbursement to Personnel Department	\$	47,045.58			
City Attorney Direct Costs Net Method	\$	14,273.54			
City Attorney Indirect Costs Net Method @ 81.26%	\$	11,598.68			
Total Reimbursement to City Attorney	\$	25,872.22			
TOTAL PERSONNEL DEPARTMENT AND CITY ATTORNEY REIMBURSEMENTS	\$	72,917.80			

The proposed reimbursements for the Third Quarter 2022 included in this report reflect reimbursements for staff partially dedicated to the DCP as follows:

- Personnel Department One Senior Personnel Analyst II and one Chief Management Analyst. Upon filling the DC Plan Manager position, reimbursement of these partially dedicated positions will be eliminated.
- City Attorney Deputy City Attorney and Legal Assistant partially dedicated to the DCP.

The calculation for salary reimbursements in this report for Personnel Department and City Attorney staff partially dedicated to the DCP includes direct costs (actual salary costs for all positions presently supporting the DCP) and indirect costs as calculated according to the City Controller Special Rates for Indirect Cost Centers (Special Rates). These Special Rates are established on a fiscal year basis. Unique rates are identified by department categories. The most recently published rate is Special Rates 44 for Fiscal Year (FY) 2021-22, which identifies staffing cost reimbursement percentages for the Personnel Department of **80.18**% for gross method reimbursement and **97.09**% for net method reimbursement; the staffing reimbursement percentage for the City Attorney is **81.26**% for net method reimbursement.

Calculation details of the Third Quarter 2022 salary cost reimbursements including quarterly activity in the DCP's revenue and expenditure accounts are provided in **Attachment A**.

B. Reserve Fund Projection

Pursuant to Los Angeles Administrative Code Division 4, Chapter 14, all of the City's internal administrative costs are required to be paid by participant fees. Two accounts are used to pay expenses: (1) an account held with the Third-Party Administrator (TPA), which acts as a repository for participant fees and from which most DCP expenses are paid; and (2) an account held within the City (Fund 896), from which office and administrative expenses, travel, and equipment purchases are made. Together, these two accounts comprise the DCP Reserve Fund.

To maintain stability within the DCP Reserve Fund and participant fees, the Board has established a target Reserve Fund balance of 50% of annual DCP operating expenses. Each quarter, when staff submits its accounting and recommendations for reimbursing administrative costs, a long-term projection is updated using assumptions for key variables that have been considered by the Board. This information is generated for the Board to compare the long-term projected Reserve Fund balance to the target Reserve Fund balance.

The Board last reviewed and approved long-term assumptions for DCP revenues and expenditures at its September 29, 2022 meeting, following a fee review and recommendations submitted by the DCP Plan Governance and Administrative Issues Committee. The current key variables used in long-term projections are summarized below:

Expenses Inflation Adjustment Factor	Enrollment Adjustment Factor	Asset Growth Adjustment Factor	Stable Value Funds Interest Assumption	Basis Points Charged Against Participant Accounts	Fee Cap	Personnel Avg. Special Rate	City Attorney Avg. Special Rate
3.0%	3.0%	5.5%	2.0%	0.09%	\$115	91.0%	93.0%

With each quarterly review, staff provides a ten-year projection of the DCP Reserve Fund balance. Fluctuations in overall DCP assets can have a significant impact on projections of future Reserve Fund balances.

Following is the rolling ten-year forecast of the DCP Reserve Fund balance updated with data as of September 30, 2022. As indicated in the chart, despite a recent dip in DCP assets, the Reserve Fund balance is projected to be above the target reserve over the entire ten-year period. The lowest projected surplus amount above the target Reserve Fund balance is approximately \$4.4 million in 2027, increasing to approximately \$4.8 million in 2032. The lowest difference between the projected surplus and the target Reserve Fund balance is approximately \$2.4 million in 2029, increasing to approximately \$2.7 million in 2032.

10-Year Projection: Projected Surplus vs. Target Reserve Projected Surplus Target Reserve 2023 2024 2025 2026 2027 2028 2029 2030 2031 2032 Projected Surplus \$4,690,323 \$4,572,675 \$4,507,528 \$4,426,344 \$4,385,380 \$4,406,188 \$4,420,940 \$4,486,645 \$4,625,658 \$4,813,004 Target Reserve \$1,720,476 \$1,756,640 \$1.830.340 \$1,878,620 \$1,919,528 \$1.998.114 \$2,051,428 \$2,160,446

At its meeting on September 29, 2022, the Board postponed options for addressing the long-term projected surplus until completion of its next resource review, scheduled for mid-year 2023.
